ISSUE ALERT

FA FA00285678
CO COMPC10094299
PE
Census Tract: 44.05

DATE: September 17, 2024

NEW INCIDENT: Yes

TIME: 7:45 PM

UPDATE:

ISSUE: Closure of a food facility due to a release of kitchen grease and sewage.

FACILITY NAME: HEIRLOOM

LOCATION: 8398 N. FRESNO ST. #106, FRESNO, CA 93720

RESPONSIBLE PARTY NAME, ADDRESS, PHONE: MAYD MODERN MEDITERR LLC

ISSUE DESCRIPTION: An issue with the grease trap in the facility may have caused sewage and kitchen grease to be released onto the parking lot and in the restaurant. Drains inside of the facility were observed to be clogged.

A food facility is required to have a functioning plumbing system that properly disposes of wastewater into the sewer system. A grease trap is required to capture the excess grease generated by the facility to prevent the grease from entering into the sewer system.

Our office will follow up with the facility operator to ensure the plumbing is properly functioning and the affected areas inside restaurant and parking area are sanitized.

HEALTH DEPARTMENT PROGRAM: Emergency Response Team

PERSON REPORTING: Gus Gomez, Supervising Environmental Health Specialist

STAFF ASSIGNED: Richard Yang, Environmental Health Specialist II

OTHER DEPARTMENTS OR AGENCIES INVOLVED: Fire Department, City of Fresno
